

**RECYCLE OFTEN.
RECYCLE RIGHT.™**

THINK GREEN.®

Thank you for being a Waste Management customer!

You've recently received a red tag on your recycling, indicating there was garbage mixed in with your recyclables. As you know, when it comes to recycling, getting the right things in the cart makes all the difference. So keeping those unrecyclable items out – which includes wet, dirty items, and household materials like hoses and bowling balls – ensures the entire load doesn't become garbage and end up in a landfill.

We are here to help you get back to recycling right and avoid service interruptions or penalties, so next time you put something in your recycling, remember the three simple recycling rules below.

Follow these three simple rules when recycling:

1

Recycle all empty plastic bottles, cans and paper.

2

Keep foods and liquids out of the recycling.

3

Keep plastic bags out of the recycling bin. No bagged recyclables. Take plastic bags back to your local grocer.
